Gregg's dream was to travel around the Americas(美洲). He got the idea after he finished a long bike ride. Gregg's friend, Brooks, also liked riding a bike. The two friends talked and made a plan, they would travel from Alaska to Argentina by bike.

To pay for the trip, Gregg and Brooks worked to save money for a long time. When they were on the road, they often camped outdoors and ate cheaply. In many places, local people opened their doors to the two friends and gave them food.

On their way, there were deserts, rainforests and mountains. They visited modern cities and ancient ruins. And they made many friends from all over the world.

Two years later, Gregg finally reached Ushuaia, Argentina in May 2007. (Near Guatemala, Brooks had to go back and Gregg continued without him.)

They both learned a lot about traveling. Here are some of Gregg's suggestions.

Friends are very important for us. Anyone needs friends. It is nice to have a friend to talk, laugh and do things with. Certainly, sometimes we need to be alone. We don't always want others around us. But we would feel lonely if we had no friends.

Not two people are the same. Sometimes friends don't get on well. However, it doesn't mean that they no longer like each other. Most of the time they will make up and become friends again. Sometimes friends move away, we feel very sad. We miss them very much, but we can talk with them on the phone. We can also make new friends. It is surprising to find out how much we like new people when we get to know about them. Of course, we won't forget old friends forever.

There's more good news for people who have friends. They live longer than people who don't. Why? Friends can make us feel happy. Being happy helps us stay well. Or it could be just showing that someone cares about us. If someone cares about us, we will take better care of ourselves.

Fill in the blanks according to the passage. Only one word for each blank.

It's necessary for anyone to have friends. However, friends (71) _____ be with us all the time. Nobody is (72) _____ to others completely. Two friends may have different opinions, but it doesn't mean they aren't friends any longer. Maybe they are (73) _____ from each other, they still miss each other, (74) _____ if they have made new friends. (75) _____ friends' care, people can live better.
